## Governor's Report

Hello friends, neighbors, relatives and Tribal members at large!

Our Shawnee area continues to have high temperatures and little moisture. This weather should be changing soon as this is the month when we begin to see rain and cooling temperatures. To my awareness we did not have any West Nile or Zika virus issues here at the tribe or in our tribal community. We were indeed blessed.

### June Election

The June 18th election is in dispute within our court system. Two separate disputes actions were filed by Twila Parker, candidate for Treasurer, and Sherman Tiger, candidate for Representative on June 30th. These disputes will be brought before the Court on August 30th. During a protest and/or dispute it is not uncommon for misunderstandings to arise. I would like to correct a couple of statements the Election Commission placed in their August newsletter on page 7.

**1st Correction Notice:** *"The Governor informed the Election Commission to use an outside attorney instead of the Attorney General's office in the above mentioned court cases."*

**1st Correction:** The statement made to me on July 1st by the Election Commission was *"We will be requesting an expedited decision from the Executive Committee on whether we are to utilize the AST Attorney General or proceed with outside counsel."*

I relayed that concern orally to all Executive Committee members, by July 5th, to get their approval or disapproval of the Election Commission using the Tribe's Attorney General. The Executive Committee decision was unanimous that the Election Commission should seek their own outside legal counsel and NOT use the tribes Attorney General. I advised the Interim Deputy Commissioner, Aly Miller, via email on July 5th of this decision. On July 6th I was advised by Ms. Miller that a letter was being forwarded and that 'funds to cover the extra cost of obtaining outside counsel, please also be thinking of this so that we can continue to expedite this process'. The Executive Committee did not discuss or authorize any

budget increases for the Election Commission or the use of the Tribe's General Operating Funds. Upon review of this email exchange I noticed that neither the serving Election Commissioner, Briana Ponkilla, nor Election Commissioner Elect, Mary Birdtail, in their respective capacity as Election Commissioners were included. Nor did these emails include Kenneth Blanchard, serving Representative; however they did include Representative Elect, Anthony Tadpole Johnson, whose elected position is in dispute.

**2nd Correction Notice:** *"The Election Commission was informed by Representative Anthony Johnson that he was notified by the Governor that he was not legally sworn in and was not eligible to make decisions"*.

**2nd Correction:** In reality what I said to Anthony 'Tadpole' Johnson was: *"a dispute has been filed and if you make decisions prior to the dispute being resolved in our court, then it could possibly be grieved through employees who are moved"*.

### Trial Date Set

#### Jeff and Isaac Gibson

As you may recall the review hearing(s) held by the Absentee Shawnee Tribal Court on May 23, 2016 set the trial date of Isaac Gibson, Jr., Lt. Governor, for October 10-11th, with the 12th set aside in case the trial is lengthy. This begins at 9:00 a.m.

The trial date set for Jeff Gibson, former Representative and current TERO contact, is October 17-19th beginning at 9:00 a.m.

The two, first cousins, are being tried for embezzlement, fraudulent use of a credit card, misusing public monies, unlawful official action, and criminal conspiracy. A spectator in one of the review hearings heard Judge Haddox, the Judge trying these two cases, state that it was the first trial-by-jury the Absentee Shawnee has had in ten years.

#### **American Indian Model Charter School**

While I was at the AAIP conference in Oakland, California I took the opportunity to visit with the American Indian Model Charter (AIM) School. I met with several staff and the Superintendent of the three AIM schools, Maya Woods. She gave me and Lesa Shaw, my Senior Policy Analyst, an overview on the three schools: Elementary; Intermediate and High School. The school originated about 23 years ago when tribal members were being relocated to the California area. It started at the 6-8th grade (intermediate) level and then grew. It now has over 1200 cross-cultural students within it and is a state accredited, year round, charter school. The school does close for short periods of intercession. The school is funded by state and federal appropriations. I asked a number of questions about how it went from being having all American Indian students to a school having a diverse cross-section of students. The answer was politics. This school of 1200 students still bears the name of American Indian but has only approximately 20 students in it at present time that is Native American. The visit was good and I learned much from this unique school about funding, educational curriculum, cross cultural services, teacher pay, uniforms and board composition. This school works with its community, the public and the state to make a difference in the lives of its children. The vision I have for our tribe, our people, is one that includes having a charter school. This school would be taught by Native American educators and provide a safe, secure, culturally enhanced, learning environment for our children and other Native American children that seek to attend it.

#### **DOT Negotiated Rulemaking Appointment**

On July 27, a Federal Register Notice was published indicating that Transportation Secretary, Anthony Foxx, had named 18 tribal and 7 federal representatives to the Department of Transportation's newly formed Negotiated Rulemaking Committee. In my capacity as Governor of the Absentee Shawnee Tribe I was selected to represent the Southern

Plains region during this Rulemaking period. The Federal Highway Administration (FHWA) will be the lead agency for the Department of Transportation.

Our first meeting took place in Sterling, Virginia where we, the Committee members, discussed and approved an agenda; held introductions; conducted a tribal caucus meeting; decided who needed to be at the table during the rulemaking process; discussed the published rule making period and the need for an alternate 'sunset' date to be set by Committee members; learned of rules and roles of the Primary and Alternate Committee members; framed an overview of Committee members Rulemaking expectations; received an outline on travel and how it was to be completed and reimbursed and Rulemaking protocols were drafted.

Two Rulemaking Committee Co-chairs were approved with Head Councilman Joe Garcia of the Southwest Region and Principal Chief Kay Rhoads, alternate to the Southern Plains Region, to serve. Two work groups were formed from the Rulemaking Committee. The two workgroups are Administration and Operations with Jody Clark, DOT Director of the Seneca Nation of Indians, to serve as the Administration Chair and Denise Michaels, Director of Transportation, Kawerak of Nome, Alaska to be Operations Workgroup Chair.

The Negotiated Rulemaking Committee set dates for the next four sessions with the locations yet to be determined. The travel costs for those of us who have been appointed as Committee members will be reimbursed.

#### **In Conclusion**

I have 9 months left in Office and I find each day eventful and full of possibilities. My door is always open (unless I am in a meeting or at a meeting) and I welcome your visits.

**Help me to make a difference – stand beside me and Let us Build for the Future (BFF) - united and together!**

## Class Counsel Question and Answer Fact Sheet

**UPDATE: August 18, 2016**

Today, the Court authorized the Settlement Administrator and Class Counsel to proceed with sending out Claim Forms to Class Members. Before the Claim Forms could go out, Class Counsel needed the Court to approve the Claim Form dollar amounts and other steps necessary to continue the settlement process. Today, we received that approval. We have notified the Settlement Administrator, who will begin preparing and sending out those Claim Forms in the coming days.

The parties' Motions and related documents regarding these steps, as well as the Court Orders can be found at <WWW.RNCSETTLEMENT.COM/COURTFILINGS.HTML>.

The Claim Forms will contain a specific dollar share for each Class Member, based on the percentage shares in the Final Settlement Agreement, as modified by Court order when additional Class Members were discovered. Please note, however, that for the ten Class Members affected by the Treasury Offset Program, which is explained in more detail below, the amount on the Claim Form will not be the amount of funds actually sent to the Class Member. This is because these ten Class Members had federal debts and/or liens, and Treasury has offset their settlement shares against those debts and/or liens.

The Claim Form MUST be signed and returned to the Settlement Administrator before payment is made.

Class Counsel will update the Class website <WWW.RNCSETTLEMENT.COM> as these developments occur. Further inquiries may be directed to any of the Class Counsel listed on the website.

### BASICS OF THE SETTLEMENT

#### When is the settlement going to be paid out to Class Members?

The earliest individual Class Members will receive payments is early September 2016, although factors beyond our control could change this timeframe.

#### What needs to happen before an individual Class Member gets its share of the settlement?

The Settlement Administrator will in the coming days begin sending each Class Member a Claim Form showing the dollar amount of its share of the net settlement amount, as calculated under the Court-approved settlement plan. (Please note, however, that the ten Class Members subject to the Treasury Offset Program (explained more fully below) will not receive the amount shown on their Claim Form.) This form must be signed and returned before that Class Member receives its share.

#### Has the federal court approved the settlement, including deductions for attorneys' fees and costs?

Yes. On February 23, 2016, the federal court issued a lengthy opinion and a final judgment approving all aspects of the proposed settlement. (On March 2 the court issued a corrected opinion, correcting minor errors in the original opinion.)

#### When did the settlement become final?

The settlement became final on April 25, 2016.

#### How much is the settlement amount?

The total settlement is \$940,000,000, plus \$7,965,659.39 in accrued post-judgment interest from February 23, 2016. The final payment from the U.S. Treasury was received in the Class bank account on July 11.

Individual Class Members can find their final Claim Form amounts at <WWW.RNCSETTLEMENT.COM>. The majority of Class Members will receive the amount of funds listed on their Claim Form. However, there are ten Class Members whose shares are subject to offset under the Treasury Offset Program, because they owe a federal debt or lien. (More information about this program can be found below.) Those ten Class Members will receive additional information from Treasury about their offset, and their Claim Forms will also include information about it. For these Class Members, their actual payment amount will be different than the Claim Form amount.

Because of the confidentiality requirements of the Treasury Offset Program, we cannot post the payment amounts for each individual Class Member.

#### Who is eligible to share in the settlement?

Class Members eligible to share in the settlement are the 699 Indian Tribes and tribal organizations that are listed in the revised Distribution Appendix approved by the Court on December 17, 2015. These are all tribes and tribal organizations that contracted or entered into self-governance funding agreements with the BIA or the Office of Self Governance under the Indian Self-Determination Act (Public Law 93-638) during any fiscal year from 1994 through 2013. These entities are listed on the Ramah Class Action website, at <WWW.RNCSETTLEMENT.COM/COURTFILINGS.HTML>. (Scroll down to "It response USET obj Exh B new Distrib Appx 12/16/2015".)

#### Where can the Final Settlement Agreement be found?

The Final Settlement Agreement, the table of Class Members' percentage shares and estimated dollar shares, the application for attorneys' fees, and other important documents are posted on the Class Website at <WWW.RNCSETTLEMENT.COM/FINALSETTLEMENT.HTML>.

### BACKGROUND

#### What is the background to this settlement?

The *Ramah* litigation is a class action lawsuit against the BIA over unpaid contract support costs. Two earlier settlements in the case generally dealt with unpaid contract support costs between the years 1989 and 1993. A third settlement in 2008 made adjustments to the system for negotiating indirect cost rates. Earlier settlements left unresolved claims for unpaid contract support costs from 1994 to the present.

#### Why was 1994 a significant year?

Since 1994, Congress has capped the maximum appropriation the BIA could spend on contract support cost payments. As a result, the BIA long asserted that it could not be held liable for any resulting underpayments.

#### What happened in the 2012 United States Supreme Court decision?

In 2012, the United States Supreme Court held that capped "not to exceed" agency appropriations in and after 1994 did not relieve the government of its contract obligation to pay full contract support costs to Indian Self-Determination Act contractors.

#### Why is this case significant?

Congress wanted tribes to be able to control and operate their own programs and services under contract without diminishing the quantity or quality of the services. Contract support costs ensure that tribes and their organizations contracting under the Indian Self-Determination Act can operate their programs and services in parity with those operated by the Federal Government.

#### How much in contract support costs did the BIA pay to tribes and tribal organizations over the years 1994-2013?

The BIA paid a total of approximately \$2.4 billion for those years.

#### What has been the impact of the Supreme Court's ruling in the *Ramah* case on subsequent congressional appropriations?

In direct response to the *Ramah* decision, Congress has increased appropriations necessary to pay full contract support costs. For fiscal years 2014, 2015 and 2016, the increased appropriations for Interior and HHS contract support cost payments to Tribes has totalled approximately \$740 million.

### KEY ELEMENTS OF THE SETTLEMENT

#### What does the settlement do?

The settlement resolves claims against the BIA for unpaid contract support costs during the years 1994 through 2013.

#### What is included and what is excluded from the settlement?

The settlement generally resolves all past claims involving contract support cost underpayments where the underpayment was caused by an agency-wide regulation, policy, or practice. But, it does not settle certain claims that are unique to a particular tribal contractor. The settlement also specifically excludes one category of contract support cost claims: claims for unpaid startup costs or pre-award costs.

#### Does the new settlement cover 2014, 2015 and 2016?

No. The new settlement does not cover 2014, 2015 and 2016. In these years Congress appropriated sufficient funds for the BIA to pay tribal contract support cost requirements in full.

### DISTRIBUTION OF THE \$940 MILLION SETTLEMENT AMOUNT

#### How will the settlement amount be distributed?

The settlement agreement includes a detailed table showing the share of the settlement to be paid to each Tribe or tribal organization that contracted for any portion of the 20 years covered by the settlement. These shares were calculated by examining the government's records of contract support cost payments, combined with the information the government and the tribal plaintiffs secured during a major statistical sampling project. A special Distribution Appendix that is part of the Final Settlement Agreement describes in detail how the percentage shares were computed, and sets forth each Class member's share percentage. In general, the larger the contract support cost payments made to a tribal contractor over the years, the larger the share of the settlement allocated to that contractor. In addition, the Distribution Appendix provides a minimum payment of \$8,000 for each year that a tribal contractor had a contract with the BIA. (On December 17, 2015, the federal court made slight modifications to the pre-determined percentages to accommodate 55 new Class Members, in conformity with section VIII.D.1 of the Final Settlement Agreement.)

After Treasury paid the settlement funds, Class Counsel and the Settlement Administrator calculated the amounts due to each Class Member. The Claim Form amounts can be found at <WWW.RNCSETTLEMENT.COM>. Under the Treasury Offset Program, Treasury offset the amounts for ten Class Members with federal debts or liens. For these ten Class Members, their payment amount will not be the amount listed on their Claim Form. If your Tribe or tribal organization is one of the ten Class Members subject to the Treasury Offset Program, it will be notified by Treasury. Additionally, the cover letter accompanying your Claim Form will contain information about the Treasury Offset Program.

#### What is the process for obtaining a share of the settlement?

Each Class Member will receive a Claim Form from the Settlement Administrator. The Claim Form will show the Class Member's percentage share of the settlement and the resulting dollar amount computed for that Member from the net settlement amount. Please note, however, that for the ten Class Members subject to the TOP, the amount on the Claim Form will not be the amount they receive in payment. The Form will be prepared to comply with the Contract Disputes Act, and it will have to be executed by tribal leadership and returned to the Settlement Administrator.

**What if a leadership or other similar dispute casts doubt on the proper recipient of a payment to a Class Member?**

As provided in the Final Settlement Agreement at Section VIII.E, Class Counsel will file an appropriate interpleader action in court and the Court will resolve the matter. So far as Class Counsel is aware, at this time there are only 11 situations of this kind.

**What deductions will be made from the \$940 million settlement amount before it is distributed?**

Deductions will include funds for a "Reserve Account," covering the costs of implementing the settlement and unexpected contingencies, and for the court-awarded attorneys' fees and litigation costs.

**How are attorneys' fees handled?**

As in most class actions, the attorneys for the Class are paid only on success, that is, on a "contingent fee" basis. The Class attorneys' application for an award of fees and costs is posted on the Class website, at <WWW.RNCSETTLEMENT.COM/CLASSCOUNSELAPP.HTML>. The Court considered this application at a January 20, 2016, Fairness Hearing, and approved the application by Order entered February 23, 2016. The Court approved a fee of 8.5% of the settlement amount. The government in the Settlement Agreement agreed "that an 8.5 percent fee is fair and reasonable and support[ed]" the proposed fee.

**Is there any provision for additional compensation to be paid certain Class Members?**

Yes, the settlement agreement provides for reimbursing Class Members selected for and participating in the sampling process for their reasonable costs of participation. The agreement also provides for enhancing by 20% the shares that would otherwise be computed for the Ramah Navajo Chapter, Oglala Sioux Tribe and Pueblo of Zuni, in recognition of the considerable work these three Class Representatives did to achieve this settlement

**Who will supervise the settlement?**

The actual distribution of funds will be handled by KCC/Gilardi & Co., the court-approved Settlement Administrator. The Settlement Administrator's work will be supervised by Class Counsel and checked by Moss Adams, LLP, the accounting firm that is the Court-approved Class Monitor. Both the Settlement Administrator and the Class Monitor are required to report on all of their work to the Court. The Court will approve all payments to Class Members before they are made.

**How does the Treasury Offset Program figure into the settlement?**

The Settlement Agreement notes that if a tribal claimant owes money to the United States, the Treasury Department will collect that debt from the contractor's settlement amount. Any amount left after the offset of the debt will then be released by Treasury for payment to the tribal contractor, after deduction of its share of the Reserve Account, costs, and attorneys' fees.

**Are there any restrictions on how a tribe or tribal organization may spend its allocation from the settlement fund?**

No. There are no special restrictions, and the settlement funds can be spent by a tribe or tribal organization in the same manner as any other unrestricted tribal funds.

**OPT OUT RIGHTS**

**Did any Class Member opt out of the settlement?**

No Class Member opted out of the settlement.

**Is there any circumstance under which the settlement could be terminated?**

No. The settlement agreement allowed the government to terminate the settlement in one unusual circumstance: if the Court permitted at least 15 tribal contractors to opt out of the settlement, and if those 15 tribal contractors' collective share of the settlement exceeded 15% of the total settlement amount. But no Class Members opted out of the settlement.

**COURT APPROVAL OF THE SETTLEMENT**

**Was Notice of the settlement provided to Class Members?**

Yes. Class Counsel mailed a Class Notice to all known Class Members. A summary of the Notice was also published in Indian Country Today, on the Class website, at <WWW.RNCSETTLEMENT.COM/CLASSNOTICES.HTML>, and on websites maintained by the BIA and the Interior Department's Interior Business Center. The BIA also mailed and e-mailed the Notice to Class Members eligible to participate in the settlement.

**Did anyone object to any aspect of the Settlement?**

No.

**Did anyone ask to be added as a Class member?**

**Did anyone ask to be added as a Class member?**

Yes, one entity objected to being excluded from the settlement. This entity received no contract support costs during any of the relevant years and so was not identified as a Class Member. Based upon this objection, the parties discovered 54 other contractors that had received no contract support costs, and asked the Court to include these additional contractors as Class Members. The Court, by Order entered December 17, 2015, approved this request. The revised Distribution Appendix showing these additional Class Members is posted on the Class website, at <WWW.RNCSETTLEMENT.COM/COURTFILINGS.HTML>. (Scroll down to "It response USET obj Exh B new Distrib Appx 12/16/2015".)

**Can interested entities still request to be added as Class Members?**

No. The deadline to request to be added as a Class Member expired in October 2015.

**PERMISSIBLE USE OF SETTLEMENT FUNDS**

**How may a Class Member use its proceeds from the Settlement?**

Funds paid to Class Members under this settlement may be used for any purpose or expenditure that the Class Member would otherwise be permitted to make under its governing documents and under applicable law.

## PROBATE MISSION STATEMENT

The primary mission of the Division of the Probate is to compile inventories of the Indian Trust Assets and family information, and to coordinate the timely distribution of trust assets with the Office of Hearings and Appeals, Land Titles and Records Office and the Office of Special Trustee.

The Division of Probate gathers information regarding decedent's family and property and prepares it for adjudication by the Office of Hearings and Appeals (OHA). After OHA issues a probate order the Division works with other trust offices, such as the Office of Special Trustee for American Indians and the Land Titles and Records Office to distribute assets.

In order for this to happen, the family of the decedent will need to contact the Absentee Shawnee Real Estate Division (Probate) to start the probate process.

Should you have any questions, please contact Lea Tsotaddle at 405-275-4030 ext. 6248.

# AST HEALTH SYSTEM - SEPTEMBER 2016

The fall is right around the corner and summer is coming to an end soon. We'll be getting ready for the Zombie Run 5K in October, and continue to expand the exciting MyDNA program as well as opening our new after-hours clinic in Shawnee and our new expanded Optometry Clinic in LittleAxe – all to serve you better! The Zika virus continues to be a concern for everyone, and the AST Health's website and social media maintains the most update information for you and your family's protection.

We continue to monitor elder care and high risk fall patients as well as homebound tribal members are always a concern to the Tribe and Health System. The health system remains a full partner with the Tribe in caring for and coordinating care for any tribal member that is homebound and has needs that we can help with or service within our scope and authority to do so as a health and wellness system. If you know of any tribal member who is homebound and needs assistance medically, please contact administration at (405) 701-7621 so we can assist as best possible with resources or coordinate assistance for these members in need.

We continue to add new specialists to the staff to make it both more convenient to access specialty care on-site as well as save contract health funds in doing so, allowing tests to be accomplished on-site and integration

of the patient's health record into the health system's database for the primary care providers to better manage care of the patients. We are especially excited to welcome our new Chiropractor, Dr. Gregory Reading, who is also an AST Tribal member – welcome aboard Dr. Reading! Thank you all for making all of our new staff feel welcome and for using our services!

The health system's most valuable resource - our people – continues to display excellence for our tribal health system! I'm extremely proud of our outstanding star performers again this month, and thank them all for their contributions to our patients, their fellow employees, and the tribe! Employee of the month in August for health was Ms. Wynona Coon, for her incredible performance on the no-notice GSA Vehicle Fleet Inspection; Team of the Month: Human Resources; and the Special Leadership Award: Ms. Lydia Longhorn, Shawnee Physical Therapy, for going above and beyond in patient care and staff support. The health employees continue to accomplish outstanding feats for our patients and for each other, taking care of our internal and external customers/patients. Thank you all for making an important difference in the lives and health of all of our health system's patients!

## UPDATE ON COMMUNITY DEVELOPMENT FINANCIAL INSTITUTION HISTORY OF CDFI'S FROM U.S. DEPARTMENT OF TREASURY

This type of program funding was to start Community Development Financial Institutions Fund (the Fund) is to expand the capacity of financial institutions to provide credit, capital, and financial services to underserved populations and communities in the United States.

This was to be accomplished by providing funding in the form of financial assistance and technical assistance for the development of a Community Development Financial Institutions. This was to be done to serve Native American tribes and organizations nationwide by providing funding for the ongoing process of the new emerging CDFI to begin to develop and create the documents for infrastructure and foundation. This was to be a program that would be sponsored by the Tribe while this development process takes place with selecting a guiding Board hire a director and start development. This was needed to have a sound Tribal created Non-Profit Corporation with the capacity to launch Credit Builder and Business Loan Products with accompanying culturally appropriate financial education and business development services.

This was developed under the former Treasurer-Kathy Deere the first application was submitted in Dec. 2012 and received first Fund Award Sept. 2013. Notices sent out a need for Board Members and they were selected from the applications submitted. From there advertised and hired first director and began developing all infrastructure and foundation documents. Our CDFI became incorporated on August 8, 2013, while we continued to meet to create Loan Policy and Procedures, Employee Loan Policy & Procedures. We continued to network finding other technical assistance from OWEESTA, Opportunity Finance Network, and participating in ongoing Board and staff training. While providing progress reports to our funding agency the U.S. Department of Treasury to maintain our funding.

In November 2015 our director quit this left the Board in a bit of a quandary; we met and decided to proceed on after a talking to our Compliance Officer and Director from the U.S. Department of Treasury. We came up with a plan as a Board and as Chair I did a Budget Modification Request moved all salary and benefits funds into Professional Services. CDFI did not have enough funds left to hire a new director so alternative plan was to hire a Grant Writer to meet our next two critical application dates of March 18, 2016 for our SF-424 through Grants.gov. The next critical date was April 18, 2016 which was to be for our future funding of Technical Assistance. Then throw in this development that U.S. Department of Treasury decided to go computerized with an automated input system which required training and competency to insure all your correct information gets accepted.

We hired a known past Grant Writer, Rick Short who was familiar with numerous tribal programs and was really interested in seeing this type of funding coming into the tribe. We were fortunate to find someone truly interested as we had one grant writer prior to him, his company lasted one month and withdrew. But, with Mr. Rick Short's assistance we were able to meet both deadlines with the assistance of the Grants and Finance Department providing essential information.

Our CDFI was also able to have a completed 1023 Application to IRS for 501-(3) © finished for our program which was in the process of being worked on when the director left. But, as a Board we followed up on that project until we received the finished product and made copies. Once Mr. Rick Short went over and checked the 1023 Application for completeness to IRS for our 501-(3)© Classification. It was submitted to IRS for consideration for our 501-(3)© Classification and as listed Contact Person, I have talked to an IRS Representative a couple of times. I have answered any additional questions that he had and reassuring him and providing "Declarations of Statement of Knowledge of Type of Organization" we are trying to start up.

The end goal is for this emerging CDFI will get the much needed added Technical and Financial Assistance Funding from the U.S. Department of Treasury to insure the ongoing development. With the end result of becoming an independent Corporation with a dedicated, business oriented board members and voluntary to ensure progress. The end goal is to become certified by the U.S. Department of Treasury meaning we have met all their qualifications requirements which will give our program a chance to branch out into other approved activities. With the new funding we will diligently advertise and look for a more reliable director with more of a financial background to accomplish all future projects. First off, I prepared this update for some and random questions that have been asked about what happened to this program. After, the director left the Board Members remained on Board and continued to meet when we needed to set a direction or make a decision and there is no Per Diem pay for any of the Board Members. All funds were conserved to be utilized for the higher priority need of hiring a knowledgeable and reliable Grant Writer; to be sure and make our two critical funding dates for 2016 of March 18 and April 18, 2016 to be eligible to be considered for any future funding from the U.S. Department of Treasury. That was how the CDFI Program was funded by and sponsored by the Tribe by providing an office area for In-Kind Contribution. This program will also become able to apply for another type of funding from the Department of Treasury called Native American CDFI-Assistance funds (NACA).

I hope this has helped with any remaining questions and at this time we await a Notification of Funding Award Amount and the IRS Decision on our 1023-Application for 501-(3) © Non-Profit Status. As Board Members we often had to plan, meet, and conduct other program activities on our own time. This was to try and insure the survival of this program.

Any additional questions please feel free to contact me and I shall try to provide you answers to your individual questions.

I also, want to extend a thank you to all past Elected Officials who supported this type of program being started, the Finance Department for information on our financial statuses, reports being submitted and the Grants Department. Also, a big Thank you to all Board Members; Gina Gray, NAFA; Tresha Spoon, Education Director; Victoria Armstrong, TATANKA Advertising Corporation; and Mr. Rick Short

## TRIBAL RECRUITMENT FAIR

Of nearly 10,700 children in state custody in Oklahoma, 3600 are Native American. Many are placed in non-ICWA compliant homes. Oklahoma Tribes are in need of tribal foster and adoptive homes for placement of tribal and state custody children. *The Absentee Shawnee Tribe and SANACPT will be participating with the Osage Nation and various other tribes in a tribal recruitment fair on October 22<sup>nd</sup> from 10:00 a.m. to 2:00 p.m. This will be a wonderful opportunity to spend the day with your children and learn about tribal foster care. There will be a free lunch provided (talk is that it is going to consist of grape dumplings, corn soup, and Indian Tacos), guest speakers, foster care panel, children's activities, and tribal booths will be set up with foster care information. Door prizes will be given through-out the day. So set this date aside for a day of family fun! **Future email will be sent out with the address of Recruitment fair.***

It's our code. It's our cause. This is the anthem of MyDNA. MyDNA is a non-profit organization that promotes a movement to encourage young Native Americans to live a healthy life free of drugs, and alcohol.

MyDNA is a tool that the Native American youth can use to avoid these deadly products. We supply ways to say no to drugs and help if one is already addicted.

MyDNA asks youth to review the statistics of drug abuse and addiction. The deadly statistics is why MyDNA choses to make an impact on our Native American youth and other teens.

Ways that we assist our teens in the community are to engage in a healthy lifestyle by promoting and holding extracurricular activities such as cultural classes, prevention events, 5k runs and much more. We have had many success stories come from this organization, and hope for many more.

MyDNA is breaking a stereotype by letting the world know that harmful substances are not part of our heritage or our history. We believe being healthy leads to being happy and living a fuller life.

If you would like to join the fight to rebuild a drug-free Native America, you can visit our website at <http://www.mydna.rocks/#our-code-our-cause>. At our website you can find guidance to join MyDNA, find events to attend, read success stories, learn new ways to live a healthy lifestyle, and check out the usage of our hashtag #UnfollowTheCrowd. You can also like our Facebook page at Mydna Rocks. We are looking forward to the growth of our organization. Our ancestors fought for us, so we will fight for our future.

**Nayeli Clea Sloat-Castro**  
*May 2, 2015 - August 18, 2016*

Nayeli was always a happy baby, she was friendly, never a shy one. She would walk up to anyone. She enjoyed outdoors, she was adventurous. She was determined to do anything, nothing got into her way. When she walked into a room she brightened it up. She had that smile that everyone enjoyed. And we want to thank the EC for all the help they gave us.

PUBLIC SERVICE ANNOUNCEMENT

## OPTOMETRY EXPANDS AND MOVES TO NEW LOCATION

**Norman, Oklahoma (August 10, 2016)** – The Absentee Shawnee Tribal Health System is excited to announce a new, convenient location for Optometry. Effective August 22, 2016, the ASTH's Optometry Department will be located at the PlusCare Clinic (building), 15702 East State Highway 9, Norman, OK, across from the Little Axe Health Center. However, patients will still have the ability to call the same phone number (405) 447-0300 to schedule appointments.

To celebrate this new expansion, Health Administration would like to invite you to the Grand Opening ceremony to be held on Tuesday, Sept. 20<sup>th</sup> at 11:30 AM to 1:00 PM at the new location. There will be an opportunity to tour the modernized facility and have some light refreshments.

This exciting move is all in effort to better serve patients and provide the best eye care experience our patients expect. Our commitment to you and the community has never been stronger; and this move allows for more space, additional exam rooms and a larger optical area with a great selection.

The hours of operation will continue to be from 8:00 AM to 5:00 PM Monday through Friday and ages served are from 5 years of age to adult. Optometry provides care for American Indian/Alaska Native patients and non-Native employees.

Our dedicated team is ready to serve you, so if you have questions about our new office, our services or how we may be able to help you, give us a call today!

## LAND BUY BACK PROGRAM

The Department of Interior recently advised they are expanding their schedule for implementing the Land Buy Back Program and adding 63 additional locations for the period of 2018 through 2021. This program began making offers in 2013. It has paid over \$740 million to individual landowners and restored the equivalent of nearly 1.5 million acres to tribal governments. This expansion brings the number of locations being planned for the program to 105. This total includes 96 percent of all landowners with fractionated interests and more than 98 percent of both purchasable fractional interests and equivalent acres in Program eligible areas. There are currently about 245,000 landowners holding approximately 3 million fractional interests across Indian Country.

The intent of the Buy Back program is to partner with tribal governments to stimulate new opportunities so that tribes can operate more efficiently, enter into community discussions and create plans that ensure lands stay in trust. The Program implements the land consolidation component of the Cobell settlement which provided \$1.9 billion to purchase fractional interests in trust or restricted land from willing sellers at fair market value within a ten year window. If a fractional land interest owner decides to sell their fraction you will receive a payment directly into your individual Indian Money (IM) account. The lands purchased through this process are immediately restored to tribal trust ownership to benefit the community and tribal members. In the upcoming months a Program representative will be communicating with our tribe on the process and its implementation.

Our tribe is on the new expanded Program list and members with eligible fractional interests are encouraged to call the Trust Beneficiary Call Center (Call Center) at 888-678-6836 and indicate whether you are a willing seller and/or to update contact information. By registering as a willing seller it does NOT commit you to selling your land, nor will it guarantee an offer will be extended; it merely identifies your interest and assist in advancing planning. **Individual landowners can contact the Call Center, Office of the Special Trustee or BIA office to learn more about your land and options available to you. You can also visit the Program site at: <https://www.doi.gov/buybackprogram/programimplementation-schedule>.**

U.S. Department of Justice

The Tribal Justice Strategic Planning Committee is initiating the submission of the Coordinated Tribal Assistance Solicitation (CTAS) Survey in this month's issue. This survey will help programs under the tribes Justice Services to implement a strategic plan. This is not only for those specific programs but for the tribal community itself. We are asking you, as tribal members, for your input on what you see as needs within your respective communities.

The CTAS Grant award was given to assist the tribe to get a better picture of what is needed within the Tribal Justice System and get community input to enhance the programs under TJS. The grant supports the process of data collection on determined needs within the community and tribal programs.

Please take some time to review the survey and think about your community concerns, strengths and weaknesses. A mail out to all eligible tribal members is forthcoming and your input would be greatly appreciated. Please be advised that any information obtained through this survey will be subject to the confidentiality as is allowed for under the Privacy Act and will not be disclosed outside of the survey.

We will also have a table set up during the October General Council and you are more than welcome to complete the survey there. A completed survey received at the Tribal Council Meeting will make you eligible to receive a raffle ticket for items donated from different programs and the TJSP Committee.

If you have any questions regarding the survey or would like to fill one out over the phone, please feel free to contact Gea Aitkens, CTAS Project Coordinator, at (405) 275-4030 ext. 6263.

## Twila Parker Future Vision

Hello, Tribal members!

As many of you may have heard I protested and then disputed the June 18th election. At this time I cannot go into any of the details as to why I challenged the election process but only that I found it necessary. The court system will look to resolve that dispute on August 30th and then I will share that story with you. Regardless of the outcome of the election I plan on staying busy within the tribe and our tribal communities. This month I took part in a number of informational meetings such as: White Turkey Band; Little Axe Chamber of Commerce; Picnic at the tribal complex; Health Board(s) - Little Axe; funeral of a tribal member; tribal elders - Resource Center; CBPN Arena - Flag Ceremony Absentee Shawnee Veterans Assoc.; CTAS Committee; Brad Hicklin, County Commissioner District 1; Community Activities - Johnson; a participant in the Citizen Band Potawatomi Nation Muscular Dystrophy Association Lock-Up Fundraiser; Cannabis Research Committee.

As I look back on my 30 plus years of work experience at the U.S. Post Office I think how important it was then and is now to have policies and procedures in place so that a system has structure and provides a foundation to build on and grow with. I have found procedures especially important during the time I served in the military. It was crucial that we follow both the established line of authority and the procedures we learned as it could mean life or death. I draw on those life experiences and my academic ones where a professor gave us a syllabus (like an agenda of what would occur during the course of the school semester) and expected us to follow the procedures it outlined.

So, what do I mean by 'Procedure'? Let's look at what the Merriam Webster dictionary defines it as. It states it is a series of steps followed in a regular, definite order. As I have worked in and with the tribe on projects, committees and as an employee I have found that we have no consistency in how we operate and do the business of the tribe. As an example, the Administrative Systems Manual was put into place to provide elected officials, departments and staff a tool to follow. Over the course of time the Administrative Systems Manual has been updated inconsistently and not necessarily in alignment with the procedures of each department as they grow and change. This Manual if appropriately maintained could make a difference in how the tribe does business and improve the quality of life for employees and tribal members.

This isn't the fault of a single person or of one elected leader or even of one administration. It is about us owning up to the reason we are not making progress throughout the tribe and then working to change that. Previous leadership administrations have shared with me that they intended to change procedures, they meant to amend the constitution to where it represented the growth of our tribe, they understood and challenged the inconsistencies in the election ordinances yet other priorities kept coming up. It is my hope that the tribes leadership, regardless of who they may be, will make needed changes. They will correct the inconsistencies and put procedures in place that will assist our tribe in its growth and development.

Thank you for your vote in June and I hope you will join with me today and tomorrow to make a difference and offer transparency on how it is being done!

# FOSTER CARE

**GOT LOVE?**

**FOSTER A CHILD**

Native American youth have two distinct influences, that of their family of origin and that of their caregivers. Absentee Shawnee Tribal Foster Care is in need of homes for children that are in our child welfare system. Your participation in being a foster parent helps to ensure that these children have positive connections to their culture. This interaction helps these children nurture a positive sense of identification as a Native American. By being willing to do this, you can be a valuable part of the healing journey that will help strengthen this next generation of Absentee Shawnee children; in turn, helping those children become the parents that their children will need them to be. Our children are our future, what will we have our future be?

## WHAT IS A FOSTER CARE WORKER?

Foster care caseworker training involves completing a bachelor's degree program in social work through a college or university. Students take courses in psychology, abnormal psychology, sociology, economics, ethics, child welfare policies and complete a supervised internship.

The child's Foster Care Worker needs to be a partner with the foster parents to ensure that each child receives the full spectrum of services provided and/or arranged by the Department.

Some aspects of this relationship include the following:

- Sharing information on an ongoing basis regarding the child's individual needs, family situation and adjustment to the foster home
- Encouraging the foster parents to participate in the total service planning process
- Providing the foster parents the opportunity to discuss the child's progress and any unmet needs which they assess
- Providing the foster parent with information, support, guidance and referrals to other professionals on the child's behalf
- Helping the foster family, when necessary, to identify and obtain services for the foster child; e.g., medical, educational
- Ensuring that the foster family, on the child's behalf, has access to all financial resources available to the child while in foster care.

A Foster Care Worker works in conjunction with Tribal Courts, Tribal Law Enforcement, Bureau of Indian Affairs, and other county services. Indian Child Welfare's goal is to ensure the safety of our tribal children when they placed in foster care. The homes that our tribal children are placed in must complete Child Welfare Background Check, OSBI Background Check, Income Verification, Home Study, and a Physical. Our AST foster homes are licensed by our Foster Care Committee.

Foster Care Payments are as follows:

- 0-5 age \$14.73 day \$441.97 month
- 6-12 age \$17.12 day \$513.57 month
- 12 and over \$19.30 day \$579.13 month

**IN ORDER TO RECEIVE PAYMENT, ALL THE ABOVE MUST BE MET AND TURNED IN TO THE STATE. ONCE PROCESSED STATE PAYMENT WILL BE ISSUED.**

This is just a little information on what type of work a foster care worker performs on a daily basis. If you are interested in becoming a foster home, please call 405-878-4030 ext. 133.

Native American youth are facing a crisis. These children are being removed from their homes and placed into the child welfare system at rates much higher than any other population. Native American children are often placed in homes outside of their families, tribes, and Native American culture and all this contributes to significant social problems. The story of Native American people is a complicated one marked by significant trauma and atrocities. Often times this trauma consisted of the removal of abuse which happened to these young and vulnerable children in many of these schools resulted in overwhelming intergenerational trauma and unresolved grief. This trauma which interrupted the ability to parent has led directly to the most current social problems that plague Native American communities today including alcohol/drug abuse, domestic violence, child abuse, sexual abuse and parenting deficiencies. All of these problems have contributed to the break-down of the family unit, leading to the removal of large numbers of Native American youth from their families. The journey of healing and breaking the cycles which have been put in place by the historical trauma experienced by generations of Native Americans requires that the cultural identity for so long denied to these children be returned. Native American youth have two distinct influences, that of their family of origin and that of their caregivers. Absentee Shawnee Tribal Foster Care is in need of homes for children that are in our child welfare system. Your participation in being a foster parent helps to ensure that these children have positive connections to their culture which in helps nurture a positive sense of identification as a Native American. By being willing to do this, you can be a valuable part of the healing journey that will help strengthen this next generation of Absentee Shawnee children; in turn, helping those children become the parents that their children will need them to be. Our children are our future, what will we have our future be? Will you, as Absentee Shawnee member, do your part if you are able?

**IF YOU ARE INTERESTED IN BECOMING A FOSTER PARENT, PLEASE CONTACT JULIANN WILSON ICW/CPS/FOSTER CARE AT 275-4030, EXT. 133.**

Racial disproportionality is defined as the over-or under-representation of certain groups (e.g. racial/ethnic, gender, age) relative to the group's proportion in the general population. Reports conducted in 2008 showed that, compared to other groups, Native American children were:

- 3 times more likely to be referred to CPS
- 1.6 times more likely to be removed from their biological homes
- Twice as likely to remain in foster care for over two years
- Less likely to be adopted and more likely to be in guardianships
- Less likely to be reunited with their biological parents

The sad reality is that there are not enough culturally appropriate homes for these children, resulting in the placement of Native American children in homes that do not share their cultural heritage or traditions. We want to place "our tribal" children in our own homes, to do this we need tribal members to open their homes and their hearts. Are you willing to open your heart? Are you willing to open your home?

If so, please contact Julie Wilson ICW/FC/CPS 878-4702 (ext. 133).

## ZIKA TESTING INFORMATION

The AST Health System has had several patients inquiring about Zika testing.

Unfortunately, we cannot test everyone who just wants to be tested to be on the "safe side" or due to concerns because of travel and desire to try and have children now.

We are not able to test for this virus in house, nor does the outside lab we use - test for this virus. The only testing source available to us is through the OK State Health Department. We have to follow their guidelines on submission of samples for testing.

The criteria per the OK State Health Department is as follows:

### 1. Symptomatic and travel history:

- **Two or more** of the following symptoms: **acute fever, rash, arthralgia, conjunctivitis**

**AND**

- Travel to a Zika-affected area within 2 weeks prior to symptom onset. Countries at risk for Zika transmission can be **determined by accessing** the following website: <http://wwwnc.cdc.gov/travel/page/zika-travel-information>

**AND**

- Specimen can be collected within 12 weeks of travel

**- OR -**

### 2. Pregnant woman with travel history:

- Symptomatic or asymptomatic pregnant woman

**AND**

- Travel to a Zika-affected area while pregnant (specimen **must be** collected **within 2 to 12 weeks** after returning from travel in order to be eligible for testing).

**- OR -**

### 3. Pregnant woman with no travel history (concern for sexual transmission):

- Symptomatic pregnant woman

**AND**

- No travel to a Zika-affected area while pregnant

**AND**

- Reports unprotected sex with male partner who traveled to a Zika-affected area (**specimen must be collected within 12 weeks after male partner's departure from a Zika-affected country in order to be eligible for testing**).

A packet of information has to be filled out to determine eligibility for testing, this information is shared by the OSHD. OSHD makes the determination on whether or not the patient meets the criteria and approves for the specimen to be shipped to the OSHD to be tested.

There is no specific medicine for Zika treatment is to ease the symptoms of the disease.

Currently Oklahoma has had 13 cases and all of them are linked back to travel outside the Oklahoma area.

Prevention is the key at this point. Prevent mosquito bites, refrain from traveling to areas with known Zika warnings, prevent the spread of virus through sex by using condoms from start to finish every time during vaginal, anal and oral sex while and after their symptoms end.

Discuss pregnancy planning with your healthcare provider

•Women and their partners should discuss pregnancy planning with a trusted doctor or other healthcare provider.

•Women who want to get pregnant should talk with their healthcare provider about their goals for having children.

•They should also talk with their healthcare provider about the potential risk of Zika virus infection during pregnancy as well as their partner's potential exposures to Zika virus.

•As part of counseling with healthcare providers, some women and their partners living in areas with Zika might decide to delay pregnancy.

•The recommended times to wait before trying to get pregnant, based on whether either partner has had symptoms, are described below:

[How Long To Wait Before Trying To Have A Baby When Living In An Area With Zika Transmission](#)

	<u>Women</u>	<u>Men</u>
Zika symptoms	at least 8-weeks after symptoms	at least 6-months after symptoms start
No Zika symptoms	Talk with Doctor or healthcare provider	Talk with Doctor or healthcare provider

Women who do not want to get pregnant should talk with their doctor or healthcare provider about ways to prevent unintended pregnancy, including birth control methods. Women should consider safety, effectiveness, availability, and acceptability when choosing a birth control method.

If you or your partner becomes pregnant, talk with your doctor.
